

ANNALISA MOLINI

CURRICULUM VITÆ

(LAST UPDATED: MAY 1, 2012)

MASDAR INSTITUTE OF SCIENCE AND TECHNOLOGY
WATER AND ENVIRONMENTAL ENGINEERING PROGRAM
PO Box 54224, ABU DHABI,
UNITED ARAB EMIRATES

&
RALPH M. PARSONS LABORATORY
DEPT. OF CIVIL AND ENVIRONMENTAL ENGINEERING
MASSACHUSETTS INSTITUTE OF TECHNOLOGY
Room 48-309, 15 Vassar Street
Cambridge, MA, 02139
☎ +1 617 258-0392
✉ amolini@mit.edu

RESEARCH INTERESTS

- Climate change, hydro-statistics and water resources availability
- Stochastic modeling in hydrology and eco-hydrology
- Climatology and modeling of extreme hydrological and biological events
- Hydro-meteorology and impacts of land-atmosphere interactions on the onset of convective precipitation
- Analysis of the linkages between meteorological (essentially deterministic) and hydrological (stochastic) models
- Non-linear time series analysis and wavelet-based spectral methods
- Remote-sensing of the rainfall field, reliability analysis of rainfall intensity measurements and error/measure theory

PROFESSIONAL EXPERIENCE

CURRENT POSITION

- Sep 2011 to present **Assistant Professor**, *Masdar Institute of Science and Technology, Water and Environmental Engineering*, Abu Dhabi, United Arab Emirates.
- Sep 2011 to present **Visiting Scholar**, *Ralph M. Parsons Laboratory, Dept. of Civil and Environmental Engineering, Massachusetts Institute of Technology*, Cambridge, MA, USA.

PREVIOUS APPOINTMENTS

ACADEMIC

- Nov 2007 to Aug 2011 **Research Associate**, *Pratt School of Engineering & Nicholas School of the Environment, Duke University*, Durham, NC, USA.
- 2006–2007 **Research Fellow**, *University of Genova, Department of Construction, Environmental and Territorial Engineering (DICAT)*, Genoa, Italy.

2001–2005 **Research Fellow**, University of Genova, Department of Environmental Engineering (DIAM), Genoa, Italy.

OTHER PROFESSIONAL EXPERIENCES

2007 **Data Manager**, World Meteorological Organization (WMO), Observing and Information Systems Department, Geneva, Switzerland – Vigna di Valle, Italy.

Data Manager and Analyst of the [WMO Field Intercomparison of Rainfall Intensity Gauges](#), at the Italian Air-force Meteorological Center of Vigna di Valle (Rome, Italy). See Subsection [Technical Reports](#) for further details.

2006–2007 **Grant Consultant for the Department of Environmental Policies**, Municipality of Genoa, Genoa, Italy.

EDUCATION

Feb 2002 PhD in Methods for Environmental Monitoring – Civil and Environmental Engineering, University of Genoa, Genoa, Italy.

Dissertation title *Analysis of the non-linear characteristics of the rainfall process, with particular regard to its intermittent structure (Analisi delle caratteristiche non lineari del processo di precipitazione con particolare riguardo alla struttura di intermittenza)* – In Italian

<http://www.dicat.unige.it/molini/DOCUMENTAZIONE/MoliniPhD02LR.pdf>

Downloadable at Supervisor Paolo La Barbera, Dept. of Construction, Environmental and Territorial Engineering (DICAT), University of Genoa, Italy

Major Hydrological Sciences and Water Resources Management

Research Area Environmental Monitoring, Data Analysis and Assimilation, Stochastic Modelling

Apr 1998 **M.S. in Marine Environmental Sciences**, University of Genoa, Genoa, Italy, 110/110 *Magna Cum Laudæ distinction.*

Dissertation title *A simple model for the Oceanic Now-casting (Un semplice modello per il Now-casting Oceanico)* – In Italian

<http://www.dicat.unige.it/molini/DOCUMENTAZIONE/MoliniTL98.pdf>

Downloadable at Supervisor Roberto Festa, Dept. of Physics, University of Genoa, Italy

Major Physics of Atmosphere and Oceanography

Research Area Meteorological Models at the Synoptic Scale

- 2003 **20)** Molini, A., La Barbera, P., Lanza, L. G., (2003) Design rainfall and accuracy of rain intensity records, (Abstract), Geophysical Research Abstracts 2003, Vol. 5, 12832.
- 21)** Molini, A., La Barbera, P., Lanza, L. G., (2003) Patterns and prediction in rainfall field: an information theory approach, (Abstract) Hydrofractals 2003, Fractals in Hydrosciences, Ascona (Switzerland), August 24-29 2003, Book of Abstracts 38-39.
- 2002 **22)** Molini, A., La Barbera, P., Lanza, L. G., Stagi, L., (2002) The influence of measurement errors on rainfall disaggregation, (Abstract), Geophysical Research Abstracts 2002. (Young Scientist's Award for Europeans - YSTA).
- 23)** Molini, A., La Barbera, P., Lanza, L. G., (2002) Linear and non-linear information flows in rainfall field, (Abstract), Geophysical Research Abstracts 2002.
- 24)** Beretta, C., Gnecco, I., La Barbera, P., Lanza, L.G., Molini, A.,(2002) An experimental catchment for first flush flows in the town of Genova, (Abstract), TIES 2002: Annual Conference of The International Environmetrics Society, Genova (Italy), June 18 - 22 2002.
- 25)** Cerisola, D., Vallebona, A., La Barbera, P., Lanza, L.G., Molini, A., Stagi, L.,(2002) An automatic device for dynamic calibration of tipping bucket rain gauges, (Abstract), TIES 2002: Annual Conference of The International Environmetrics Society, Genova (Italy), June 18 - 22 2002.
- 2001 **26)** Molini, A., Lanza, L. G., Stagi, L., (2001) The influence of intermittency on tipping bucket rain gauge measurements, (Abstract), EGS General Conference, Geophysical Research Abstracts 2001.
- 27)** Molini, A., La Barbera, P., Lanza, L. G., (2001) A stochastic approach to the analysis of intermittency in high resolution rain signals, (Abstract), EGS General Conference, Geophysical Research Abstracts 2001.
- 28)** Molini, A., La Barbera, P., Lanza, L. G.,(2001) Entropy and correlation in temporal rainfall process, (Abstract), Seventh International Conference on Precipitation - Observations, Estimation, and Prediction of Precipitation Variability at All Scales, Rockport, Maine (USA).

- 2000 **29)** Molini, A., (2000) Intermittence statistical structure in pluviometric time series observed at high resolution (Abstract), EGS General Conference, Geophysical Research Abstracts 2000.
- 30)** Molini, A., Stagi, L., (2000) Rain gauges response to synthetic rainfall events (Abstract), EGS General Conference, Geophysical Research Abstracts 2000.

TECHNICAL REPORTS

- 2007 **1)** Molini, A., (2007) WMO Field Intercomparison of Rainfall Intensity Gauges, Vigna di Valle, Italy, Mid 2007 – Mid 2008, Data Manager Technical Report, No. 1, July–August 2007
- 2)** Molini, A., (2007) WMO Field Intercomparison of Rainfall Intensity Gauges, Vigna di Valle, Italy, Mid 2007 – Mid 2008, Data Manager Technical Report, No. 2, September 2007, downloadable at: <http://www.wmo.ch/pages/prog/www/IMOP/reports/2003-2007/>

TEACHING EXPERIENCE

- Spring 2011 **Guest Lecturer**, *Duke University, Department of Civil and Environmental Engineering*, Durham, NC USA.
Fluid Mechanics (undergraduate)
- Fall 2010 **Instructor**, *Duke University, Department of Civil and Environmental Engineering*, Durham, NC USA.
Environmental Thermodynamics (graduate)
- Spring 2010 **Guest Lecturer**, *Duke University, Department of Civil and Environmental Engineering*, Durham, NC USA.
Fluid Mechanics (undergraduate)
- 2001–2007 **Teaching Assistant**, *University of Genova, Department of Construction, Environmental and Territorial Engineering (DICAT)*, Genoa, Italy.
Water Resources Management (graduate and undergraduate)
- **Teaching Assistant**, *University of Genova, Department of Construction, Environmental and Territorial Engineering (DICAT)*, Genoa, Italy.
Hydraulic Infra-structures (undergraduate)
- **Teaching Assistant**, *University of Genova, Department of Construction, Environmental and Territorial Engineering (DICAT)*, Genoa, Italy.
Introductory classes of "Statistic and Stochastic Methods in Hydrology and Civil Engineering (graduate and undergraduate)
- **Laboratory Assistant**, *University of Genova, Department of Construction, Environmental and Territorial Engineering (DICAT)*, Genoa, Italy.
Working on Measure & Sampling theory, Metrological Validation of hydraulic/hydrological measurements and Instrumental Calibration (see [Publications](#)). In this context, I also collaborated to the development, and to the following metrological validation, of a the Calibration module for the laboratory qualification of rainfall intensity measurements (QM-RIM), used by the university of Genova during the [WMO Laboratory Intercomparison of Rainfall Intensity Gauges](#)

I also advised students during the preparation of their Master thesis and graduate students in the development of their PhD research programs.

INVITED TALKS

April, 9th 2010 **"Intermittency, Asymmetry and Causality Signatures in the Rainfall Generation"**, *School of Earth and Atmospheric Sciences, Georgia Institute of Technology, Atlanta, GA* -Joint seminar with BESTA (Bioengineering Statistic Center at Tech).

PEER REVIEW REFEREE FOR:

Water Resources Research.
Journal of Geophysical Research.
Journal of Hydrology.
Journal of Hydrometeorology.
Water, Air & Soil Pollution.
Advances in Water Resources.
Environmental Science & Technology.

SCIENTIFIC AFFILIATIONS

2000 to present **Member of the European Geophysical Union (EGU).**
2007 to present **Member of the American Geophysical Union (AGU).**
